Kinetics Sports Trackers

Company Name: APEX Race Technologies

Vision: To provide the 99% of athletes and academies currently flying blind with the key to unlocking their maximum potential.

Date: March 2026

The Problem

The Data Deficit: A reliance on gut feeling and manual observation instead of objective, quantifiable metrics.

Elite data is gate-kept by elite budgets.

- **The Affordability Gap:** Current pro-grade systems exclusively target top-tier leagues, completely ignoring mid-tier academies and clubs due to their lower purchasing power.
- **The Hardware Gap:** Consumer trackers (Apple Watch, Fitbit) lack ability to provide complex analytics with their data and high-frequency tracking.
- **The Blind Spot:** Academies, semi-pro leagues (especially in markets like India) have zero access to reliable kinematic data or real-time performance data.

The Solution

We are launching a hardware ecosystem that captures both the **Micro-dynamics** (the swings), the **Macro-dynamics** (the field movement both indoor and outdoor) and the **Vitals** (Pulse, Blood oxygen, Heartrate) of the athlete. This helps them to focus on the exact weak areas

- **The Secret Sauce:** By utilizing powerful advanced spatial and motion tracking algorithms, we unlock massive capabilities for advanced biomechanical analytics while keeping the physical equipment simple and affordable.

Our Hardware Ecosystem

Professional-grade performance tracking for the rest of the world.

1. Kinetic-Micro

A physics lab on the handle *of your bat.*
Designed for Cricket, Baseball, Badminton, and Tennis.

2. Kinetic-Macro

Pro tracking for the field.
Designed for Cricket, Football, and Team Sports.

3. Kinetic-Vital

24/7 strain and recovery tracking. Designed for continuous, distraction-free wear

Business Model Canvas

KEY PARTNERSHIPS

1. Pilot academies
2. Hardware manufacturers
3. Component suppliers
4. Cloud providers
5. Logistics Company

KEY ACTIVITIES

1. Hardware R&D
2. Software & AI dev
3. Pilot testing
4. Sales & marketing
5. User education

KEY RESOURCES

1. Grassroots dataset
2. Hardware IP & designs
3. Engineering talent
4. Cloud infrastructure

VALUE PROPOSITIONS

1. Affordable Pro grade tracking
2. Complete athlete performance profiles
3. Zero-friction, instant setup
4. Real-time practice adjustments
5. Validate coaching with objective proof

CUSTOMER RELATIONSHIPS

1. Dedicated B2B academy support
2. Automated B2C self-service
3. Collaborative pilot partnerships
4. AI-personalized athlete feedback
5. Grassroots community building

CHANNELS

1. **Before Sale:**
   1. Direct B2B sales
   2. App stores & D2C site
   3. Tournament demos
2. **After Sale:**
   1. Coach web dashboard
   2. Companion app

CUSTOMER SEGMENTS

1. Sports Academies
2. Clubs
3. Semi-Professional athletes
4. Coaches
5. Schools Ans Colleges

COST STRUCTURE

1. R&D (25%)
2. Pilot Manufacturing (10%)
3. HR & Talent (35%)
4. Software & Cloud (20%)
5. Overhead (10%)

REVENUE STREAM

1. B2B HaaS subscriptions
2. B2C HaaS subscriptions
3. Pay-as-you-go AI tokens

Revenue Model

Hardware-as-a-Service (HaaS): The Subscription-First Model

Included Hardware (Zero Upfront Cost)

The Kinetic-Micro, Macro, and Vital trackers are included for free with a membership commitment.

Academy Membership (B2B)

Clubs and Academies pay a recurring annual or monthly per-player subscription. This unlocks the hardware, live multi-player coach dashboards, tactical heat-maps, and team-wide injury prediction.

Athlete Membership (B2C)

Individual athletes subscribe to unlock their personalized 24/7 biometric data, advanced AI swing analysis, and tailored diet/recovery recommendations. If the subscription ends, the hardware deactivates.

The Competitor Matrix

Competitor	Primary Focus	Tracking Scope	Key Metrics	Total Athlete Tracking	Target Audience	Revenue	Price
str8bat	Bat kinematics & 3D rendering	Bat Only	Bat speed, angles, 3D replay	❌ No	Individual batters, academies	Hardware + Sub (B2C)	₹7,999
StanceBeam	Bat kinematics & video sync	Bat Only	Bat speed, power, efficiency	❌ No	Individual batters, academies	Hardware Sales (B2C)	₹6,899
SPEKTACOM	Power generation & impact analysis	Bat Only	Bat power, twist, impact zone	❌ No	Pro leagues, broadcasters	(B2B)	Enterprise Pricing
SMART CRICKET.COM	Bat kinematics & coaching platform	Bat Only	Bat speed, angles, 3D replay	❌ No	Academies, professional players	Hardware + Sub (B2C)	₹6,499

Beyond Coaching (Other Value Propositions)

Building a monetizable, longitudinal data ecosystem.

Data-Driven Talent Scouting

We are building a centralized, verified database of grassroots talent. Franchise leagues (like TNPL, IPL, BCCI) and national scouts can filter and discover "diamonds in the rough" based on objective historical metrics, completely eliminating bias.

The "Verified" Athlete Resume

Players own their historical performance data. Instead of sending subjective highlight tapes, a young athlete in a tier-2 city can send a verified, biomechanical data profile to elite academies like Gen-Next or CSK Academy.

Injury Risk & Load Management

By tracking the cumulative physical stress and workload over a season, physios and trainers can prevent overtraining and career-threatening injuries before they happen.

Personalized Diet & Nutrition Planning

By analyzing an athlete's daily energy expenditure, macro-dynamics, and workload, our AI engine provides tailored caloric and hydration recommendations to optimize recovery and peak performance.

The Ask & Milestones

Fueling the phase of development.
Raising: ₹40 Lakhs Pre-Seed

Raised So far: ₹2 Lakhs (Sri Sai Ram Techno Incubator foundation)

Use of Funds:

- **25% - R&D:** Custom hardware refinement, precision tracking optimization.
- **10% - Pilot Manufacturing:** First 50 units for beta testing.
- **35% - Human Resources & Talent:** Hiring key operational and engineering staff.
- **20% - Software Development:** Coach dashboard and advanced AI analytical models.
- **10% - Overhead:** General administrative and operational costs.

Milestone Reached:

Experimental validation and prototype for the core technology is achieved

12-Month Milestone:

10 paying academies and 500 active daily users generating a proprietary dataset.
